

## DRAFT PROGRAMME

The meeting will be chaired by **Karin Ulmer**, Act Alliance EU

### 9.00 start of meeting

- Welcome by **Mr Lančarič**, the Vice Rector of the university
- Welcome by **Pavel Poc**, former member of the European Parliament, vice-chair of the ENVI committee, vice-chair of the PEST Committee

### 9.30 Keynote speeches

- *A pesticide perspective on the EU Green Deal* by **Latislav Miko**, Head of the European Commission's Representation in Slovakia
- *The Common Agricultural Policy reform and how it will ensure the needed Ecological Transition* by **Jorge Antunes**, Member of the cabinet of Commissioner Wojciechowski, agriculture and rural development (*remote tbc*)
- *The Common Agricultural Policy reform – what Member States want* by the **Croatian presidency of the EU**

### 10.30 Technical session on alternatives to chemical pesticides in arable crops

- *How I reduced my pesticide use by 50% in 5 years and what it means for me* by **Jean Bernard Lozier**, French IPM farmer
- *How I reduced my pesticide use by 100% converting to organic farming practices* by Slovak organic farmer (*tbc*)

### 11.30 How to ensure serious pesticide use reductions in Slovakia

- **Daniel Lesinsky**, CEPTA
- **Lucia Palšová**, Slovakian Agriculture University of Nitra
- **Bronislava Škarbová**, Slovakian Ministry of agriculture (*tbc*)
- **Andrew Owen Griffiths**, DG SANTE Head of Unit
- **Michal Wiezik**, EPP Member of the European Parliament
- **Martin Hojsik**, Renew Europe Member of the European Parliament

## **12.15 Debate with participants**

## **13.00 End**

**Presentations of earlier years SUD symposiums:**

### **Who are we? An innovative partnership consisting of:**

**IOBC/WPRS** is an International Organisation of progressive European researchers and other knowledgeable people investigating the use of sustainable, environmentally safe, economically feasible, socially acceptable control methods of pests and diseases of agricultural crops. IOBC/WPRS fosters research and practical application, training and information exchange, especially of all methods including biological control as part of integrated pest management. IOBC/WPRS produces guidelines for integrated production of agricultural crops, collaborates with different stakeholders to develop sustainable agricultural production systems and standardises methods of testing effects of pesticides on beneficial species, with the aim to foster biodiversity and ecological services as a natural resource.

**IBMA** is the association of biocontrol industries producing solutions: microorganisms, macroorganisms, semiochemicals and natural products for plant protection. Based on long years of intensive research and development, the "Biocontrol industry" is now growing fast and can offer safe and cost- effective solutions to the entire food chain. IBMA was created in 1995 to represent the views of the developing biological control manufacturers, which are mainly SME's with limited resources, research organisations, extension services, consultants, distributors, contributing to the development of biocontrol and participating in IBMA activities.

**PAN Europe** is an NGO working to minimise negative effects and replace the use of hazardous chemicals with ecologically sound alternatives. Our network brings together public health, and environmental organisations and women's groups from across 19 European countries. We work to eliminate dependency on chemical pesticides and to support safe sustainable pest control methods.

PAN Europe gratefully acknowledges the financial support from the European Union, European Commission, DG Environment, Life+ programme.
